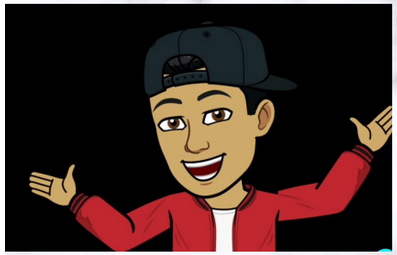
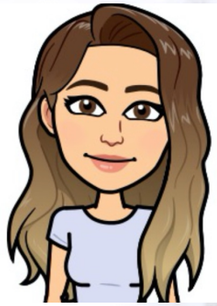
Coding Journal





By Dylan and Florence

What is coding?

Coding is!

Letters and numbers forming what they are doing or how to do it, if you put
In a code correctly the chosen character will do that action.

What is decomposition?

Decomposition is....

Decomposition is where you have a big promblem you need to solve so you break it up into pieces

What do you think makes a good game?

- Multiple choices of characters

-Respawn when your character dies

-Good content

-interesting sounds

-Good coding

What do you think makes a bad game?

-Bad coding

-non useful content

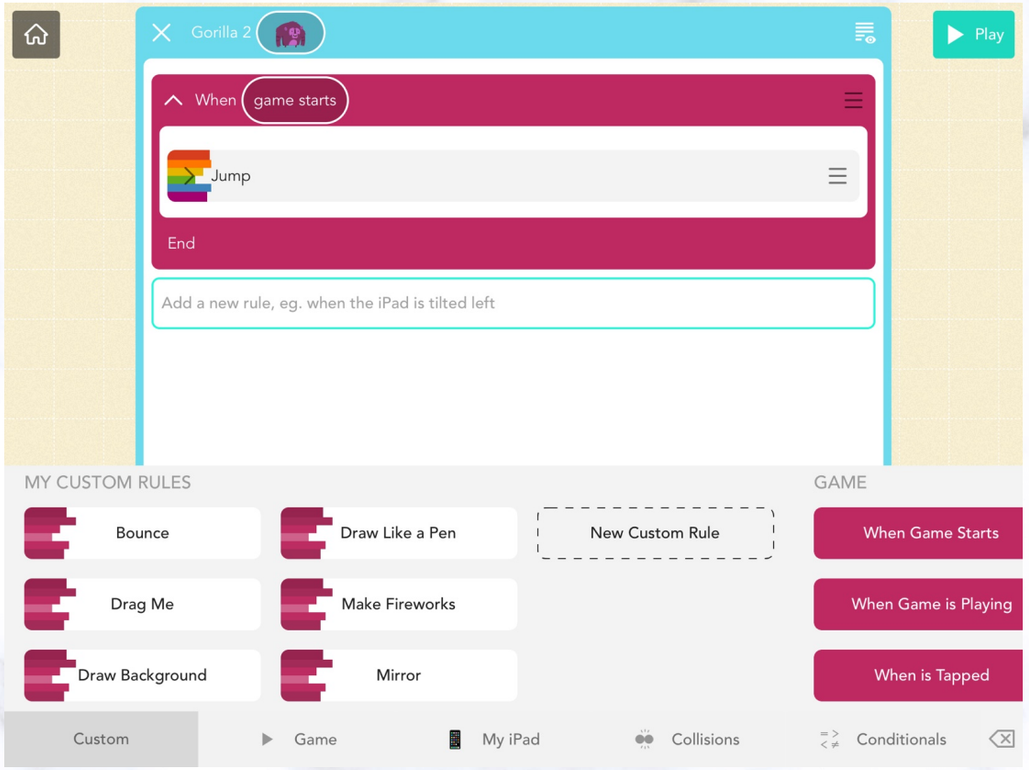
-lags a lot

-Not a selection of characters

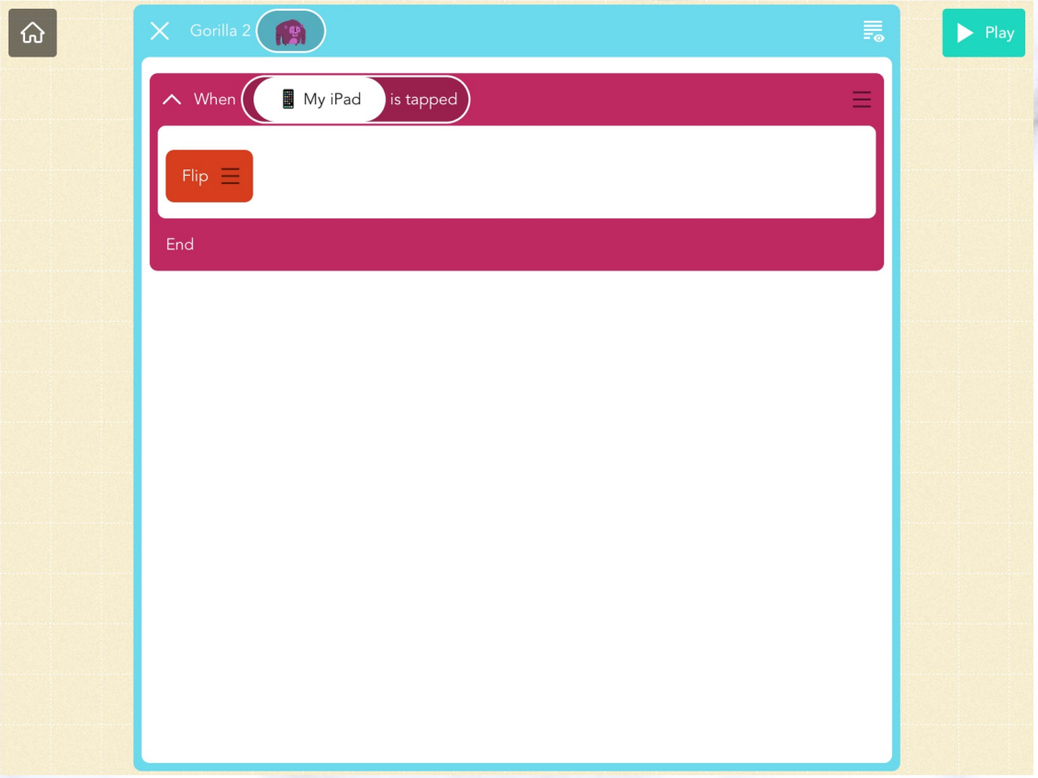
-One chance in a day to play the game

When something happens

Trigger

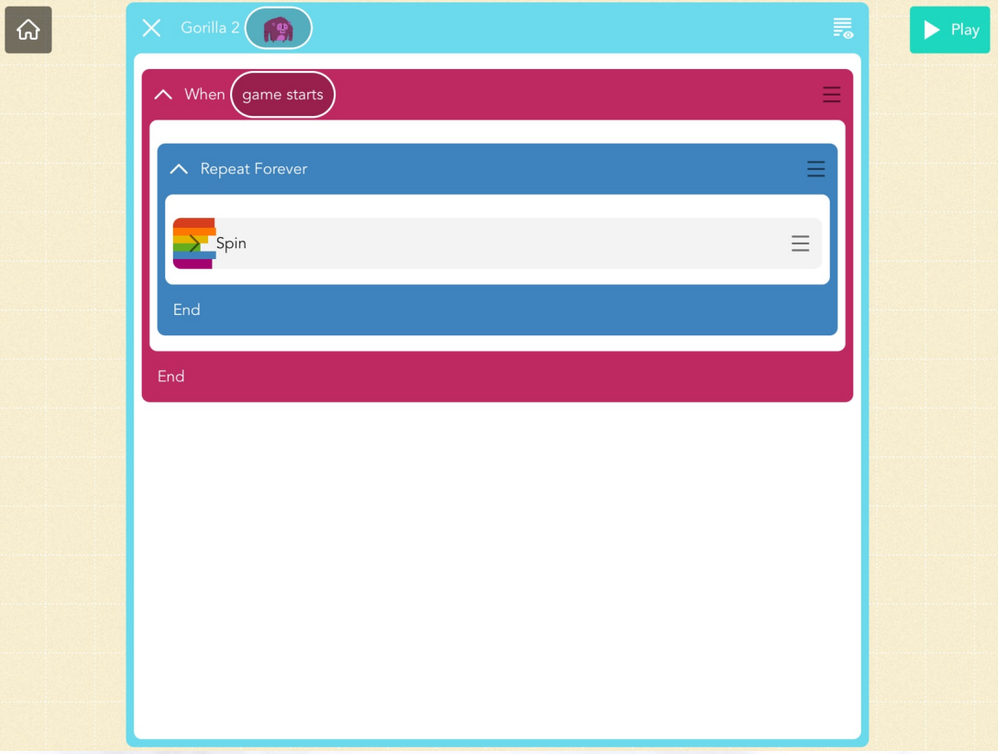


Creating a command

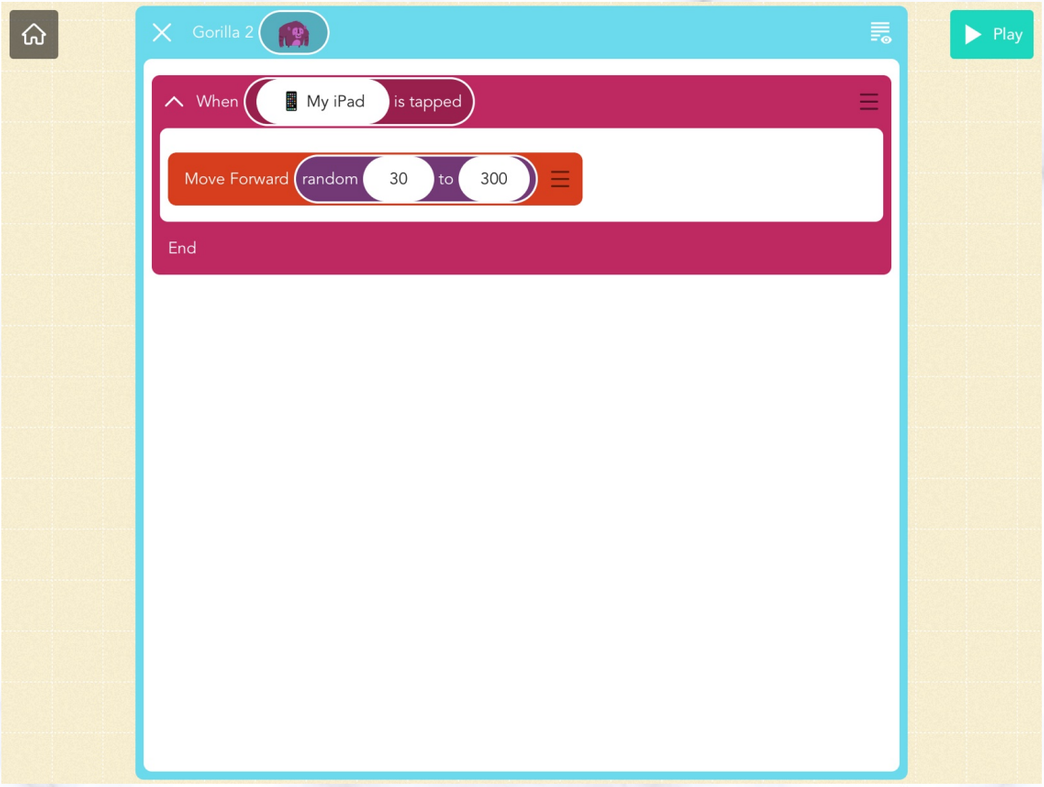


Creating a sequence - a list of instructions

Creating a loop



Creating a random block



Glossary

Event- when something happens trigger

Command- an instruction move 10

Sequence- a list of instruction

Loop- code that repeats

Random- the lack of a pattern

Range-mother lowest and highest numbers that random can choose check

Kowigie

-just escaped from Area 51

-Donald trump put him in Area 51 so he has got a hatred against him

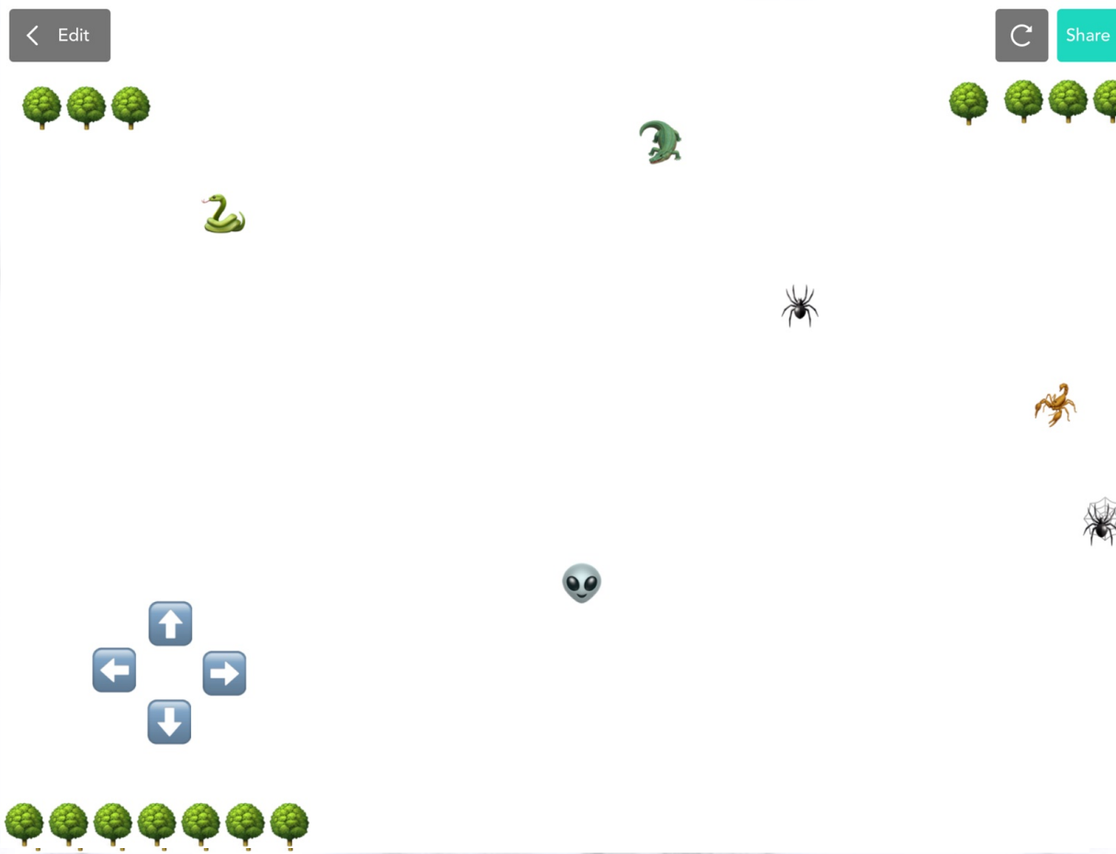
-Newborn

-He eats cockroaches

-his biggest dream is to go on I'm a celebrity

Obstacle!

Obstacle!

Obstacle!


My game!
