

English

We are beginning to participate in oral blending / segmenting activities using our phonics knowledge. We are engaging in purposeful mark making. We are beginning to attempt to write our names – sometimes using a name card for support. We are beginning to recognise our own names from a group of names without visual support.

Understanding of the World (Links to Science)

We are beginning to use all our senses to explore natural materials outdoors. We are beginning to question and understand how things work.

Expressive Art & Design (Links to Music)

We are able to remember and recite various songs from different genres. We are practising using sign to music. In our music sessions we are learning to play musical instruments with increasing control and becoming familiar with their names.

Expressive Art & Design (Links to Art)

We are beginning to explore with tools that we can use to create. We are beginning to draw with increasing detail. We are continuing to explore different materials. And how we can use them in art.

Expressive Art & Design (Links to Design Technology)

We are beginning to create using objects available to us for junk modelling and creating collages. We are being involved in the process of making playdough.

Come and See

We are gathering and coming together to learn about good news and passing on the good news of Jesus.

Personal Development - PSHE/RSE

We are continuing to be supported to understand and talk about how others might be feeling and reasons why. We are beginning to talk about feeling using words including 'happy, sad, angry. We are beginning to help finding solutions to conflicts and rivalries. We are developing being able to settle to an activity of choice for some time. We are developing independence within self care routines.

Nursery - Summer Term

Curriculum Enhancements

Visit from the baby chicks, Visit from the farm, caterpillar lifecycles.

You can help at home by...

Ask the children about their day. What was the phonics sound today? What story did we read? What are we learning about in maths this week? What was the theme in PE? Check the nursery blog for pictures of your children and discuss with them.

Maths

We are developing our knowledge about sequences. We are learning about 2D and 3D shapes through exploration, and developing mathematical language used. We are exploring position and positional language. We are beginning to make comparisons between objects relating to size, weight, length and capacity.

P.E. (Physical development)

We are learning to match our developing physical skills to tasks and activities in the setting. We are practicing using a comfortable grip when holding a pencil. We are becoming increasingly independent in dressing and undressing.

Oracy (communication and language)

We are developing our pronunciation and focusing on specific sounds. We are beginning to use longer sentences in our talk. We are beginning to understand why questions that are asked of us. We are beginning to understand questions that have two parts.

Understanding of the World (Links to History)

We are learning about our family history. We are beginning to make sense of our own life history. We continue to show an interest in different occupations.

Understanding of the World (Geography)

We are starting to venture outside of the EYFS base and around the school indoors and outdoors. We are beginning to be aware that there are different countries in the world and explore them.
